

LED LIGHTS

LED lights lighting the way

When looking for a light source that provides bright illumination with comparatively little energy use, **LED lights** are the answer. It provides a strikingly bright light, while being extremely energy efficient. If you consider that these lights also boasts up to 40 000 hours of life, it is certainly a very cost-effective solution, cutting down on your electricity bill and saving you money on replacing traditional light bulbs. They generate very little heat and operate on a much more simplified circuit, making them suitable to be run on battery or solar power. With so many advantages, the following are only a few of the solutions they provide for your lighting needs.

Because **LED lights** provide a clear light, they are suitable for indoor use in work areas or room lighting. They can be dimmed, making them ideal night lights. The low energy use and heat generation are perfect for children's rooms. Stairs will never have to be a hazard again, as they can be left on all night. You can also light up features that are an obstacle in the dark while simultaneously using it as decorative light. A real-time clock can be set to switch lights on and off automatically, ensuring that you do not come back to a dark house, and creating the impression that someone is home when you are out.

These lights are water tight, making them highly suitable for outdoor use as well. Use them to light dark corners of your yard, pathways leading up to the house and front and back doors to increase the safety and security of your house. They can be set to switch on and off at dusk and dawn, or can be controlled by a remote control. An optional modem system can even enable you to operate them via phone, no matter where you are, making them even more convenient.

Ambiente offers you LED lights on a system that has all these benefits, including a back-up power supply. So even when the power goes out, your lighting system will still keep on lighting the way. Visit ambiente.co.za and make sure that you are never left in the dark again.
